

# NIET Journal of Engineering & Technology

- |    |                                                                                                                                                                         |    |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| 1  | Analysis of XPM-induced cross talk in the optical fiber for higher order dispersion with respect to power input to the fiber<br>- Pawan Kumar Dubey, B. Mohapatra       | 1  |
| 2  | Design Philosophy of Microwave Gunn Oscillator.<br>- Ragini Shukla                                                                                                      | 6  |
| 3  | A Bi-Directional DC-DC Converter Feeding PMBLDC Motor Drive System<br>- Pritish Kulshreshtha, Sanjay Gairola and Anurag Verma                                           | 10 |
| 4  | UHF RFID Reader Antenna Using Double Slot Loaded Circular Patch<br>- Vinay Kumar Dubey, Prabhaker Agrawal and V K Pandey                                                | 17 |
| 5  | Enhancing the Performance of Multi Area AGC in Deregulated Environment Tuned with SSSC.<br>- Sunil Kumar, Kavita Kamboj, Manvi Tayal and Tanu Singh                     | 21 |
| 6  | An Analysis of Utilization Factor of Fee-Counter in Colleges<br>- Nidhi Sharma, Raman Chauhan, Sudhanshu Aggarwal                                                       | 27 |
| 7  | Solution of Linear Volterra Integro-Differential Equations of Second Kind by Using Laplace Decomposition Algorithm<br>- Sudhanshu Aggarwal, Raman Chauhan, Nidhi Sharma | 31 |
| 8  | Evaluation of Latency in Delay Sensitive Cloud Services<br>- Rahul Kumar Sharma, Mayank Deep Khare, Amrendra Singh Yadav, Ayushi Singhal                                | 35 |
| 9  | An optimized approach over hybrid scheme through removing unidirectional links<br>- Amrendra Singh Yadav, Ayushi Singhal, Rahul Kumar Sharma, Mayank Deep Khare         | 40 |
| 10 | Integrated MANET Mutual Authentication System- A Review<br>- Ayushi Singhal, Amrendra Singh Yadav, Mayank Deep Khare, Rahul Kumar Sharma                                | 44 |
| 11 | Micro-strip Slot Antenna with high Efficiency<br>- Jitendra Kumar Saroj, V. K. Pandey                                                                                   | 53 |
| 12 | Design & Performance Analysis of CPW Fed Square slot Antenna and Horizontal H-Shaped Stub Antenna<br>- Pradip Kumar Yadava, Surya Deo Choudhary                         | 57 |
| 13 | Simulation of Steady State and Dynamic Response of Multi-effect Evaporators in Paper Industry<br>- Deepak Kumar, Harendra Singh, Somesh Kumar                           | 62 |
| 14 | Zigzag Connected Autotransformer Based 12, 24 & 36- Pulse Rectifiers<br>- Rahul Yadav, Sanjay Gairola                                                                   | 71 |

### **FORWARD FROM DIRECTOR**

I am proud to announce that Noida Institute of Engineering & Technology is releasing the seventh volume of NIET Journal of Engineering & Technology. It's a peer reviewed journal and contains original research work of authors from India and abroad. I congratulate all the authors for their excellent work and their faith they have shown in the Journal, published annually. I hope they will maintain this faith in future also and continue providing their excellent research work for publication in our journal.

I praise the Chief Patron, Patrons, Editor-in-Chief, Associate Editors, Editorial Advisory Board, Reviewers, Editorial Support Team, Assistant Editors and other associates for their hard work. The quality of research papers published in the journal builds good trust among the research community.

I thank management of the Institute for their support and encouragement in this endeavor.

**Prof. (Dr.) Ajay Kumar**  
Director, NIET, Greater Noida
